

Heat-Seal & Cold-Seal Blister Cards

Pharmacy Automation Supplies is your source for unit dose Heat-Seal and Cold-Seal blister cards to institutional, specialty, closed-door, hospital, and retail pharmacies as well as long-term care, correctional, and assisted living facilities.

We manufacture blister cards made specifically for fold-over blister card applications. Our Blister Cards have a smooth printing surface for high impact graphics and a back-side coating for sealing at lower temperatures and higher speeds. One-Piece Cold-Seal Blister Cards are convenient for lower volume facilities where heat-sealing equipment is not practical.

- Disposable Packaging
- Large Variety of Label Offerings to Customize Your Name and Brand on the Blister Card
- Automation and Heat-Sealer Friendly
- Meets Class B Packing Standards
- Tamper Evident
- Large Inventory of In-Stock Blister Cards to Ensure Availability
- Environmentally Safe Water Based Inks
