

## Prescription Labels

Pharmacy Automation Supplies is a leading manufacturer of all types of prescription labels. Our labels are designed to enhance your pharmacy's professional clinical image, brand identity, and awareness of your organization. We have over 2,000 dies that enable us to manufacture millions of labels daily while supporting all formats and printers found in pharmacies.

Pharmacy Automation Supplies controls all aspects of the label converting process from pre-press art design, plate making, press production, packaging, to shipping finished goods. This insures consistent and reliable 3-4 week lead-times on order execution.
